

BOMBARDIER Challenger 604 > D-ATTT

The Bombardier Challenger 604 corporate aircraft is the next step in the continuing evolution of the world's best selling family of large business jets. Next-generation innovation, on a tried-and-true platform that has seen Challenger become the backbone of the worlds' most esteemed corporate fleets. An aircraft built in response to the needs and absolute necessities of pilots and business leaders alike, for today and tomorrow. By design, it provides corporate and government leaders with the widest - and indeed, one of the quietest - cabins in the industry, in which passengers can work or rest in total comfort and tranquility. It is also designed to ensure that the Bombardier Challenger aircraft, and those who fly in them, continue to stay ahead of all others.

Combining superior strength, versatility and reliability with cost efficiency matching that of an appreciably smaller jet, the Bombardier Challenger 604 corporate jet is capable, confident and infinitely versatile, allowing leaders to act with swift effectiveness anywhere in their world.
