

> D-AHGN

Work, rest and play - The **BOMBARDIER Global 6000** aircraft was carefully designed to deliver the smoothest, most refreshing, and productive flying experience. Without exceptions, this 6905 mi range business jet ensures its guests the maximum comfort possible.

Holding generous space for 13 passengers, the layout of the D-AHGN is arranged in two sections: The central cabin provides eight seats in a double-club configuration and integrates a credenza with entertainment equipment storage. The aft stateroom offers space for five guests, guaranteeing perfect privacy and a sense of tranquility, if desired. This separable cabin comprises a full-berthing divan, two single seats, independent temperature control, and connects to the fully enclosed lavatory area. The baggage compartment can be accessed anytime throughout the flight.

All seats of the D-AHGN are intelligently sculpted and have an outstanding width, high armrests, an impeccably shaped backrest and a berthing option. This allows every passenger to enjoy even the longest trip. Sophisticated soundproofing materials enable lowest-in-class sound levels. Thanks to the world's fastest in-flight internet connectivity through „Ka-band technology“ (excl. North and South Poles) and the most comprehensive cabin management system, air travel is never again restricting passengers from video conferencing, live streaming or online gaming. Working and playing above the clouds? No problem!
