

## > D-CJJK

The CESSNA CITATION XLS+ aircraft is a further development of the Citation Excel. The mid-size jet is characterized by its efficiency and has a range of 3.250 km.

The D-CJJK carries eight passengers, has a pleasant height and is equipped with six comfortable, wide and fully reclining leather seats. The layout includes a central club configuration for four guests, two single seats in the aft cabin and a comfortable bench seat in the forward cabin. Four pull-out tables - two large ones in the club section and a smaller one at each of the aft seating areas - complete the smart layout. VIP seating controls give you the full power over the cabin lighting and temperature.

The galley features a cabinet with ice drawer, practical storage space, and a spacious work area for catering arrangements. The washroom with toilet and sink is fully enclosed and separable from the main cabin to provide guests with the privacy they desire. An external baggage compartment provides space for all your luggage.

The D-CJJK is an exclusive and efficient aircraft that will get you to your destination in the shortest possible time.
